

# The State of Health Insurance 2020-2021

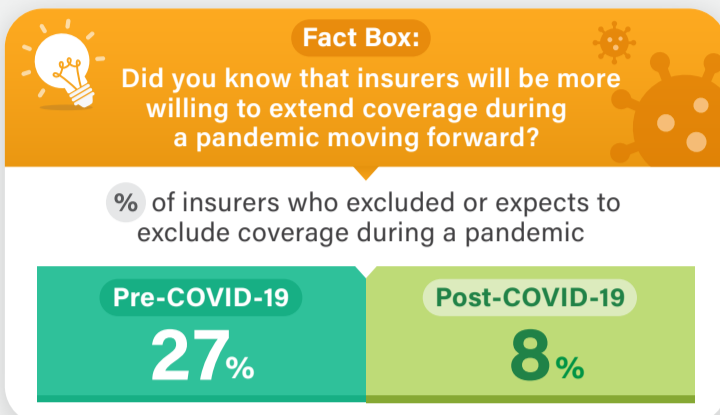

Features global and regional insights!

## What are the main forces shaping the health insurance industry?

### 01 Insurers and clients continue to cope with the financial impact of COVID-19

With **individuals** facing **pandemic-related hardships** and **businesses** dealing with **tightening budgets**, insurers will need to engage with clients and adapt their approach.

### 02 Major healthcare challenges and trends

Rise of **telehealth** and **virtual healthcare solutions**

Advancement in **healthcare technology**, and use of **AI** and **blockchain**

Importance of **cybersecurity** as **healthcare providers** rely on **technology**

Spotlight on **healthcare experience** and **new frameworks** for national health systems

And more!

### 03 Impact of COVID-19 on the insurance industry

**Delayed treatments** will drive up claims for insurers further down the line

Growing % of individuals with **mental health conditions** will burden insurers

**Telehealth adoption** will surge and insurers will need to adapt their offerings

And more!

### 04 Changing consumer needs and expectations for insurtech

**Health and wellbeing** becomes a **priority** in the **post-pandemic** world

**Younger**, more **health-conscious** individuals turn to **health insurance** products

**Hygiene standards** and **high quality, empathetic care** will be key to patients' **health experience**

Both **physical presence** and **digital channels** will shape the **insurance landscape**
